

February 24<sup>th</sup> 2016

Dear David,

I got your letter a few weeks back, thank you for writing, and thank you for your support at the trial. I'm glad you were there protesting. You should be able to voice your opinions and hold signs, especially at a courthouse where it is especially important to have that freedom. I know it was touchy because the judge wanted to control what the jury was exposed to, but I don't think you did anything wrong and I appreciate you trying to help even though I was found guilty in the end. Now I have to focus on sentencing. I really don't want to get that life sentence even though I know the prosecutors will be pushing for it. Please thank the others that were with you showing me support at trial if you get a chance 😊
